

Rescue Randy not rescued

Thirty-two pre-kindergarten students from the Primrose School of Johnstown Road took a field trip to Mifflin Township Division of Fire Station 133, 501 Beecher Road, Gahanna July 24-25, 2013. The children sprayed a fire hose, climbed on the heavy rescue truck, saw the firefighter/paramedics' sleeping quarters and fire pole, and got to see firefighter/paramedics do their combat challenge physical fitness test they only do twice a year. One of the requirements is pulling the 265-pound dummy Rescue Randy.

Children are pictured doing one of the drills firefighter/paramedics do for their challenge which is rescuing Rescue Randy. However, three of them pulling did not move Randy at all.

- "I like this place because they help people," said Molly Crabtree.
- "The fire station always helps," said Allison Schmitt.
- "I like this place because I like to pull," said Miles Allen.

Anyone interested in visiting a township fire station to see EMS transport vehicles, ladder trucks, or meet their friendly and helpful firefighter/paramedics should call Assistant Chief Michael Grossman at (614) 428-7958.
